ENHANCED SAFE MANAGEMENT MEASURES AT PSA SINGAPORE TERMINALS - CONTACTLESS (SEGREGATED) CARGO OPERATIONS

1. This circular supersedes CIRCULAR NO. SHD/G/01052021 dated 3 May 2021 with effect from 14 May 2021 and updates the safe management measures for contactless (segregated) cargo operations.
2. PSA Singapore will be enhancing safe measures at all its terminals with immediate effect in view of heightened risk of the spread of COVID-19 infection.
3. **All vessels** berthing at PSA Singapore Terminals **must** conduct **contactless (segregated) cargo operations**. This means that during cargo operations, the vessel crew are to stay within the accommodation area of the vessel and to avoid contact with the stevedores working on board the vessels. The details of the procedures for this operation is as shown in the list below.
4. In addition, all crew are required to comply and adopt safe measures to prevent the spread of COVID-19 infection. Crew are to wear a mask at all times when outside the vessel's accommodation, continue to practice good personal hygiene, maintain a safe distance of 2 metres from the stevedores, and minimise any contact with shore-based personnel.
5. By observing these enhanced Safe Management Measures, we hope to safeguard the health and safety of the vessel's crew and our workforce.
6. Please inform the Master of vessels at least 48 hours before the vessels arrive in Singapore waters of this requirement.
7. Please continue with the Maritime declaration of health as this form part of the measures to prevent the spread of Coronavirus Disease 2019 (COVID-19) into Singapore. Please refer to MPA Port Marine Circular No.16 of 2020.
8. You may contact the respective Terminal Managers directly for further guidance.

S/N	SAFE MANAGEMENT MEASURES FOR SHORE-BASED PERSONNEL	REMARKS
1	PSA pilot to don on PPE upon boarding vessel - piloting vessel to PSA berth	PSA Pilot will remain a safe distance of 2 meters from Ship crew & minimum manning on bridge.
2	Only essential services shore-based personnel are allowed onboard vessel to perform required jobs, including safety and health related activities e.g. emergency exceptions and repair of reefer malfunctions	Shore-based personnel who board vessels are not allowed to use ship toilet and no drinking/eating of ship water/food. PSA stevedores will only board vessel for container lashing activities and guidance of quay crane operations. Upon completion, immediate disembarking is required.
3	Essential services shore-based personnel to don on PPE and to ensure personal hygiene when working onboard.	They must be protected adequately with the necessary PPE such as face shield / face masks / gloves / gown without jeopardising operational and personal safety of workers. Upon end of shift, PPE shall be immediately disposed.
4	PSA stevedores movements are only restricted to their working areas. They are not allowed to enter ship accommodation	PSA stevedore movements only restricted to shore-side.
5	Provision and supplies can be done concurrently with container terminal operations provided it does not disrupt terminal operations. During this period, it has to be done contactless where there will be no contact between ship crew and ship suppliers. No crowding of vessel crew, and crew are to return to vessel accommodation after lifting operations are completed. All items that lift up to vessel can be taken back - including safety nets, ropes and pallet. However, all items taken back must be sanitised by the ship suppliers. Offloading of ship spares from vessel is allowed. No contact between delivery team and ship crew, proper sanitisation must be done after taking delivery.	Provide contactless means of document endorsement. if not feasible, place document on the gangway for vessel crew to pick up.
6	Plugging and unplugging of reefer container can be done by PSA or Ship crew personnel with masks and gloves on, and to don proper PPE. No contact between PSA staff and vessel crew allowed.	Ship crew movements only restricted to sea-side, no contact with any PSA stevedores. PSA personnel movements only restricted to shore-side.

7	Only essential PSA stevedores are allowed to remain on the ship once the unlashng / lashing of containers are completed.	PSA stevedores to be deployed accordingly. PSA stevedores will perform unlocking of container from tier 86-92 from container top via spreader ride from wharf. Upon completion, PSA stevedores will take spreader ride from container top to wharf.
8	All documents will be sent via email, there will zero contact of hardcopy documents.	All endorsement of documents will be via email only. if not feasible, place document on the gangway for vessel crew to pick up.
9	Shipping lines or terminals will provide communication equipment to communicate with vessel crew.	Foreman/Supervisor will ensure that disinfection of communication equipment is being carried out
10	Essential activities, e.g. bunkering operations or crew change, with SMM put in place by MPA are allowed. All personnel including vessel crew are to put on masks and adhere to at least 2m safe distancing.	All endorsement of documents will be via email only. No contact between ship crew and shore-based personnel. For crew change requirements, do comply with MPA's requirements in their website. https://www.mpa.gov.sg/web/portal/home/port-of-singapore/circulars-and-notice/detail/e689cae8-46ab-4f22-8fe8-b30fab33beef
11	All Temporary pass applications will be screened only for essential services eg. medical, or certification or repairs that are essential for ship safety.	All applications must be endorsed by the Vessel Operators and approved by Terminal Managers.
12	Port Users will not be allowed to take PSA internal shuttle buses.	Shipping Lines will have to arrange transport for their contractors if they are not allowed to park at the wharf.
13	All port users and Shore-based personnel who board vessels or otherwise, are not allowed to enter PSA Canteens.	PSA Canteens are closed to all Port Users until further notice.
