Paperless Trading Electronic Trading Systems Update to E-TITLE Change of Ownership and approval of Corda eBL as replacement of E-TITLE

Members are referred to Circular dated [28 October 2015](#).

Notification of change in ownership of E-TITLE

The International Group had previously approved E-TITLE. This circular notifies Members to the following:

- (1) a change in ownership of the E-TITLE electronic trading system and its underlying legal framework to software technology firm, R3;
- (2) a change in trading name of the E-TITLE electronic trading system to Corda eBL; and
- (3) Members are invited to take note of how the Corda eBL software will operate.

Corda eBL

Corda eBL is a software development kit (SDK), that provides a mechanism to facilitate the title transfer and negotiable functionalities of a bill of lading. It has been created to complement some of the existing web-portal services operated by shipping lines, financial services providers, logistic operators and traders.

The Corda eBL SDK is subject to a legal framework, supporting the peer-to-peer transfer of eBLs, without the need to revert to paper. The electronic transfer process mimics a paper bill of lading workflow. Further details can be found on <https://www.r3.com/corda-eb/>.

R3 is a software technology firm representing a large consortium of international banks and trading houses.

Corda eBL User Agreement version 1.2 - Approved

The legal documentation associated with the use and operation of the Corda eBL solution is the “Corda eBL User Agreement (version 1.2)”. This document has been reviewed and approved by The International Group. The Corda eBL solution (formerly known as E-TITLE electronic trading system) will replace E-Title as an approved electronic - i.e. paperless - trading system. The Corda eBL User Agreement (version 1.2) supersedes the E-Title User Agreement.

From 24 September 2021 E-title will cease to be an approved entity

From 24 September 2021 E-title will cease to be an approved entity. As part of their due diligence, Members are advised, when contracting with an Application Service Provider (“ASP”) licensed by R3, to seek assurance that the ASP has in place liability cover for non-P&I risks.

Other exclusions of cover under Group Club Rules continue to apply

Members are reminded that other exclusions of cover under Group Club Rules relating to the carriage of cargo will, of course, continue to apply in respect of all the IG-approved providers in the same way as for paper systems. These exclusions include discharge at a port or place other than the port or place provided for in the contract of carriage, the issue / creation of an ante or post-dated electronic document / record, and the delivery of cargo without the production of the negotiable electronic document / record, which - in the case of an approved electronic trading system - will mean delivery of cargo other than in accordance with the rules of that trading system.

All clubs in the International Group have issued a similar circular.
